Skills

React/Redux

TypeScript

Node.js

MongoDB

Go

TailwindCSS

Languages

English

Spanish

Catalan

Hobbies

Hiking, Speedcubing, Diving and Running

Profile

Passionate self-taught Full Stack Web Developer with rich experience in React/Redux, TypeScript, Express/Node.js, MongoDB, Tailwindcss and Go. I've been developing and delivering high-quality applications for businesses since 2021. I strive to push my knowledge and limits forward in every project. I code every single day, learning and improving to become one of the best.

Employment History

Web Developer at SKUALO Porto Cristo May - Oct 2022

I designed and developed the website and a custom web application for a Diving Center from Porto Cristo.

Web Developer at Mixing Media Feb - May 2022

I worked with Mixing Media, a luxury furniture brands representative from Catalunya. Creating a fast and reliable website, tailored to their design and image.

Self-Taught Software Engineer Jan 2021 - Present

Since 2021, I've been teaching myself how to code, how to create web applications and program real-life solutions. I started with courses but rapidly changed to create projects. During these last three years, I created hundreds of different projects to deeply understand the main concepts in web communication, component reusability, security, deployment, collaborative work, etc. I believe the best way to learn is by hands-on projects, taking feedback and continually improving.

Education

Mathematics Sep 2019 - Jun 2021

I studied two years of Mathematics at UIB, in Mallorca. After serious thought, I realized that it would let me achieve my goals, and I was closing myself some doors. So I decided to drop off and pursue a Software Engineer career by myself.

Certificates

Web Developer Bootcamp, Udemy July 2021

Modern React with Redux, Udemy March 2022

C1 English IELTS Official April 2023
