Profile

Passionate self-taught Full Stack Web Developer with rich experience in MERN stack. Also I have experience in Typescript, React Native, Vue and Go.

Employment History

Freelance Software Engineer at Sellerly   September 2024 - Present

For the last months I've been working in a start up from the Netherlands, specialized in boosting BOL.com seller's growth and martket reach. Working with Node.js, TypeScript and Vue.js. Helped me learn to understand and work with technologies I've never used and working collaboratively.

Full Stack Engineer at SKUALO Porto Cristo   May 2023 - Present

I've been freelancing for this company for a while now. I designed and developed the website and some custom web applications for the biggest Diving Center in Mallorca. Connected to Fareharbor's booking system.

Web Developer at Mixing Media   Feb - May 2023

I created the website for a luxury furniture brands representative from Catalunya.

Self-Taught Software Engineer   Jun 2021 - Present

Since 2021, I've been creating end-to-end projects, primarily personal ones like accounting mobile apps, financial metrics calculators, and an algorithm-based 3D Rubik's cube playground. I've also developed and sold web applications to businesses across various industries, always seeking to deliver high-quality solutions and refine my skills.

Education

Mathematics   Sep 2019 - Jun 2021

I studied two years of Mathematics at UIB, in Mallorca. After serious tought, I realized that it would let me achieve my goals, and I was closing myself some doors. So I decided to drop off and pursue a Software Engineer career by myself.

Certificates

Web Developer Bootcamp, Udemy   July 2021

Modern React with Redux, Udemy   March 2022

C1 English IELTS Oficial   April 2023
